

Australia Awards

Scholarship Application & Mobilisation Process for Scholars with Disability

Australia Awards Myanmar begins promotion, including outreach to potential applicants with disabilities

Applicants disclose any disability and indicate what support they would need to participate in the program via the online application

Australia Awards Myanmar reviews applications and makes reasonable adjustments to enable participation in an IELTS test and interview for shortlisted applicants

Australia Awards Myanmar connects successful applicants with a Disability Support Consultant to conduct an assessment and develop a tailored support plan for mobilisation

Successful applicants with disabilities complete a Disability Support Statement (DSS)

Successful applicants with disabilities complete a medical report

The Disability Support Consultant reviews the DSS and develops a Disability Support Agreement (DSA)

Successful applicants receive an Australian university offer

The DSA is agreed and signed by the successful applicants, DFAT, and the university

Scholars mobilise to Australia

Scholars attend the Pre-Departure Briefing, with reasonable adjustments made to facilitate the participation of scholars with disabilities

DFAT officially offers successful applicants an Australia Awards Scholarship

Australian universities conduct on-award activities
The DSA can be adjusted at any time while on-award by contacting the Student Contact Officer at each university

Scholars complete their studies and return to Myanmar
